Iron County, Missouri Genealogy Society

Iron County, Missouri Historical Society

INTRODUCTION

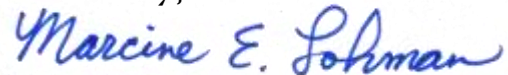

This book is a compilation of death records for Iron County, Missouri which I've been putting together for several years now. I thought it was time to get it in print so people could use it. Since there are still several sources available for me to compile a second volume in the upcoming years, I've labeled this book as Volume One. Volume Two will be a continuation of this book and will cover the same dates but have some different sources for data and perhaps include some additional individuals.

You may find a person listed multiple times in this book because they are listed in multiple sources. This should work to the researcher's advantage as I've discovered a few mistakes on tombstones and even birth/death certificates. Multiple sources should offer to confirm the data as correct or at least flag a difference for the researcher to search further.

Libraries, genealogy/historical societies, and researchers, etc. are entitled to make copies of this book, without requesting permission from me, so long as this book is not sold for profit. Others, please ask.

I hope you find this information useful.

Sincerely,

Marcine E. Lohman
